

## Programming Instructions:

1

Press and hold the programming button.  
With your finger still holding it down,  
connect the black connector.

*The blue, red, yellow, and blue & red LEDs will alternate.*

2

When only the blue LED is momentarily lit,  
release the programming button.

*The blue LED should stay lit. If it doesn't then unplug  
the black connector and restart Step 1.*

3

Insert the required 3 remaining connectors.

4

Do not press the brake pedal.  
Press the Push-to-Start button twice to turn on  
the ignition.

5

Press and release the the programming button  
once.

*The blue LED should go out and then flash rapidly.*

6

Press the Push-to-Start button once to turn off  
the ignition.

*The BLUE LED will turn off.*

**YOUR MODULE  
IS NOW  
SUCCESSFULLY  
PROGRAMMED.**
